

Sprint 4 10/16/2018

- Major tasks/activities

1. Activity Title: Data Collection and Research

- a. Objective: Data Collection and make dummy data.
- b. Deliverable: data file.
- c. Progress: We've finished collecting data and are writing scripts to generate dummy data according to it.
- d. Time remaining: 2
- e. Next steps: generate dummy data and add to database.

2. Activity: Finish building Home Page

- a. Objective: Show user's following user's posts at home page.
- f. Deliverable: Scripts
- b. Progress: Done design
- c. Time remaining: 0
- d. Next steps: We'll make adjustments if we received any potential user's feedback

3. Activity: Feature implementation.

- a. Objective: Finish basic post and social feature design.
- b. Deliverable: Scripts.
- c. Progress: We've fished feature design listed on the PI plan and are thinking about other features might be useful.
- d. Time remaining: 0 (more will depend on extra features we implement).
- e. Next steps: We will discuss if there's additional features we should add to the product and modify existing features if we receive feedback from potential user.

- Individual Contributions.

1. Ciel & Yushu: Data Collection and Generation – 5 Hours
2. Ciel & Yushu: Finish building homepage – 2 Hours
3. Ciel & Yushu: Finish Feature implementation - 7 Hour
